JERRETTE BAKER
TIGI Artistic Team
Education Director

What's your "thing"?

I love working with hair. Cutting and styling is my specialty, however I also love doing very natural hair colour, particularly balayage. I also love working with amazing people, my favorite days are when I get to do beautiful hair on an awesome person.

What's your educational background?

I've always felt that you can't be a jack of all trades because it only makes you a master of none. I focused all my education on hairdressing, working with TIGI and Toni&Guy, nearly exclusively. That led to me working in education for them, and now I'm globe trotting to educate other hairdressers on the importance of mastering their craft. I've always been a firm believer that education is the key to success.

What do you do for fun?

I love the outdoors - hiking and kayaking. Netflix and wine in the winter. I love keeping up on fashion and I like to use references to current fashion to offer advice in hair trends. I also love teaching for TIGI - so I consider that "fun" not "work."
